Tech Stacks ⌄

- JavaScript
- NodeJS
- ReactJS
- MongoDB
- C# basic
- ASP.NET Core

Tools ⌄

- Figma
- Office Tools
- Postman
- Git & Github

Soft Skills ⌄

- Requirement Analysis
- Email Writing
- Teamwork
- Communication
- Design UI
- Problem Solving

Language ⌄

- Basic English Communication

Cerfications ⌄

- TOEIC (Updating...)

About Me

I am a Software Engineering graduate from Huflit with 2 years of experience in JavaScript frameworks, including NodeJS and ReactJS. I have hands-on experience working with both SQL and NoSQL databases, particularly MongoDB. Additionally, I have professional experience as a Business Analyst at FPT Information System Corp, where I gathered requirements, created documentation, and supported project implementation.

EXPERIENCES

05/2025 - 10/2025 | FPT Information System Corp | Business Analysis

- Gathered and analyzed customer requirements to understand business needs; created clear documentation using UML, BPMN, SRS, BRD, and CMC.

- Designed user-friendly UI/UX with Figma; assisted users during system implementation and provided training to ensure smooth adoption.

- Prepared test case checklists and tested the product before delivery; collected user feedback and suggested improvements for future versions.

10/2025 | CV Online | Teamsize: 1 | Frontend Developer

- Tech Stack: Vite+React, Tailwind

- Make it beneficial for employers to look through the applicant's information

09/2024 - 12/2024 | Website Room Management and Rental | Team size: 2 | Backend Developer - API Services

- Tech Stack: MERN Stack, Cloudinary, VN Pay, JWT Authentication

- Developed backend services using the MERN stack to manage room rental operations, including room availability, tenant management, and booking schedules.

- Integrated VN Pay for secure online payment processing, allowing tenants to pay rent monthly through the website.

- Implemented JWT-based authentication for landlords and tenants to ensure secure access to system features.

- Handled image uploads and storage using Cloudinary for room photos and documentation.

- Designed APIs to support search, booking, and rental functionalities, providing smooth interaction between frontend and backend.

EDUCATIONS

2022-2026 | HCMC University of Foreign Languages - Information Technology (HUFLIT)

- GPA: 3.3 / 4.0
- Major: Software Engineer
